

The present survey is part of a major project developed by CIES – ISCTE entitled “The Portuguese Members of Parliament in Comparative Perspective: Elections, Leadership and Political Representation”. The main purpose of this project is the study of political representation in the Portuguese parliament. A crucial innovation of this project is the embeddedness into two international networks of research: The *Comparative Candidate Survey* and the *Parliamentary Representation at National and European Levels (PARENEL)*, which will enable an in-depth analysis and an international comparative study of political representation.

The project is financed by several public and private entities, such as: Portuguese Parliament, FCT, FGC, STAPE, CNE. The project has also full support by all party leaders.

We would like to thank you for your collaboration.

All questionnaires will be handled with care. Data will be totally confidential and will be considered merely for statistical purposes.
